

Sleeve Label Applicator

The unique Sleeve Label Applicator from Robotag has been developed after years of experience in the ornamental horticulture sector. The design was informed by key imperatives in the ornamental horticulture sector, such as reliability, flexibility and fast delivery.

Robotag Label Service

Does investing in the Sleeve Label Applicator not fit with your overall business strategy at this time, and would you rather contract out this service? Then the Robotag Label Service is the perfect solution for you! Our Sleeve Label Applicator can be used to label all of your flower and pot plants sleeves. If you use special sleeves and labels, Robotag can keep them in stock for you so they are available when you need them, ensuring rapid delivery.

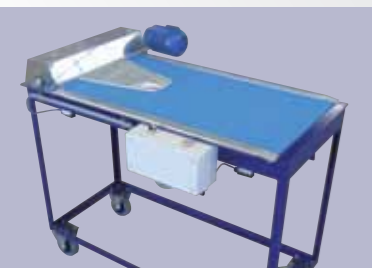

Robotag Print Shop

The Robotag Print Shop offers a wide selection of labels. Our thermo transfer printers guarantee high-quality printing. Robotag can print the labels with the text of your choice.

Labels and Ribbons

Robotag offers an additional service: we can provide all the materials required to label products for the ornamental horticulture and related sectors. This includes a broad range of high-quality labels and thermo transfer ribbons. Is the product you are looking for not included in our range? No problem. We can simply order it for you.

Sleeve Wringer

Robotag has developed a special 'Sleeve Wringer' to prevent sleeves from sticking together after manufacture or storage. The advantage to this is a guarantee that every individual sleeve gets labeled every time.

**THE LABEL UNIT:
THE ADVANCED LABEL HEAD
ENSURES PRECISE LABEL POSITIONING**

**OPERATING UNIT:
FOR EASY ADJUSTMENT
AND READING OF SETTINGS**

The fully automatic Sleeve Label Applicator was specially developed for labeling sleeves used for cut flowers and pot plants. This device allows you to quickly and easily attach one or more labels to your sleeves. The labels are positioned with considerable accuracy and all sleeves are labeled identically. This fully automated process ensures your products look professional and consistent.

- The Sleeve Label Applicator can label virtually all types of sleeves.
- The Sleeve Label Applicator can handle all of your special requirements.
- The Sleeve Label Applicator is flexible and easy to operate.
- The Sleeve Label Applicator has been specially developed for the ornamental horticulture sector.

Optional
The Sleeve Label Applicator can also be equipped with a special label printer that is mounted directly onto the Sleeve Label Applicator. This enables an even more efficient labeling process and the possibility to process relatively small batches.

**INPUT UNIT:
INPUT OF THE SLEEVES
READY FOR LABELING**

**OUTPUT UNIT:
SLEEVES ALREADY LABELED**
